

PENGUIN SHAKER CARD BY WENDY MCGLINCHEY

Step 1

Take the large penguin stamp from Penguin Set 1 (Sml) and stamp onto card using the black Versafine ink pad. Once dry cut around the image, colour the beak and stick in the centre of your piece of patterned paper.

Step 2

Using a couple shades of blue chalk, colour your plain white CD envelope dusting off the excess chalk when you are happy with the colour.

Step 3

Before you begin stamping onto the envelope make sure that it is upside down with the opening at the bottom. Using the 'Snow' text stamp from the Penguins set 2 (Mini) stamp a few impressions in black Versafine onto the chalked CD envelope. Also stamp a number of snowflake images in black Versafine randomly and going off the outer edges. You will need to mask the inner aperture circle and stamp off the inner edges with a couple of images too.

Step 4

Clean your snowflake stamp and randomly stamp a few snowflake images using the Platinum Planet Brilliance ink pad. Set aside to dry.

Step 5

Pop some double sided tape along the bottom of your patterned paper but do not remove the top layer of paper from the tape until later. Slide this piece of patterned paper into the decorated CD envelope.

Step 6

Add some flowersoft into the envelope as your shaker material and carefully remove the paper from the double sided tape and stick the front of the CD envelope to the patterned paper. Stick the flap to the back also using double sided tape.

Tie the length of decorative ribbon around the envelope and stick the now completed shaker to the base card using double sided tape or glue.
