

SWINGING TREE TAG BY WENDY MCGLINCHEY

Step 1

Stamp the Funky Christmas tree image from Christmas Set 7 onto white card using a black Versafine ink pad. Heat set the ink and colour the tree with markers of your choice in funky vivid colours. Cut around the tree and punch the hole through at the top of the tree.

Step 2

Colour your large white tag using a cotton ball and some red and green chalk. Using the 'Wishing You Joy' stamp from Christmas Set 7 stamp all over the tag going off all the edges. Colour the edges of the tag with a red pen.

Step 3

Load your paint brush with water and red paint and lightly tap droplets of paint all over the tag. Set aside to dry.

Step 4

Clean your paint brush and load it once again, just with water, tapping fine droplets all over the front of the base card. Cover the water droplets with gold embossing powder and remove excess. Heat emboss. Load your paint brush now with water and red paint - lightly tap more paint droplets onto the front of the base card. Leave to dry.

Step 5

Using your two lengths of red organza ribbon attach the tree to the tag through the holes, not too tightly, trimming the ends to a required length. This will leave the tree swinging on the tag.

Step 6

Attach your tag to the front of your card base using 3D foam pads.
